

Welcome

*President Lois B. DeFleur, the Binghamton University Council,
faculty, alumni and students of Binghamton University,
State University of New York, are honored by your presence
at the Spring 2008 Commencement Ceremonies*

Binghamton University Events Center

May 17 - 18, 2008

Message from President Lois B. DeFleur

Graduates, parents and special guests: Today, we congratulate and celebrate our students' accomplishments. Commencement signals the culmination of their academic endeavors at Binghamton and we are proud of their achievements.

Our graduates leave Binghamton with a strong foundation for future success. During their years of study at Binghamton, the Class of '08 has had a broad range of experiences, and I am impressed by both their academic achievements and their volunteerism and community service. For example, this year's graduating class participated in the Relay for Life, which raised funds for cancer awareness and support; contributed to CHOW, the local food bank; and assisted in cleanup and recovery efforts for flood victims, both here in the Southern Tier and in the Gulf Coast following Hurricane Katrina. Most impressively, they have offered countless hours of volunteer work in local hospitals and for healthcare providers, and have served as mentors and role models for youth in local schools and community organizations. This outstanding record helped Binghamton University achieve a place on the U.S. President's Higher Education Community Service Honor Roll.

The Class of '08 also has seen the University grow and develop, with new facilities to support both their academic and social experiences. In the last four years, Binghamton University has added the cutting-edge Innovative Technologies Complex, where students can pursue hands-on research with faculty supervisors, and has opened the University Downtown Center, which provides new opportunities for students to gain educational experiences in our community. Students also have benefited from the University's commitment to extending the learning environment beyond the classroom through such programs as Discovery, which is nationally recognized for promoting students' academic interests, intellectual development and social growth. Many have expanded their educational and cultural horizons through study-abroad and other international experiences, or have participated in valuable internships that provide real-world knowledge. Most important, the liberal arts background as well as work in their major has given them the understanding and perspectives they need to lead our state and nation in the coming decades.

For the fifth consecutive year, *The Fiske Guide to Colleges*, in its 2008 edition, has again recognized Binghamton University as "the premier public university in the Northeast." Today's graduates have helped the University gain this reputation for excellence, yet credit must also go to the families and friends whose support and guidance have encouraged our students to take advantage of the many opportunities at Binghamton.

Graduates, thank you for choosing the State University of New York at Binghamton. Thanks, also, to the families of our bright and talented students for entrusting their education to Binghamton University. We are pleased and proud to launch them into the next phase of their life journey, confident that they are well prepared for the future and that their accomplishments will be significant.

*Sincerely,
Lois B. DeFleur
President, Binghamton University*

Honorary Degrees

Binghamton University, in addition to awarding baccalaureate, master's and doctoral degrees for work completed at the University, looks outside itself to identify individuals who, by their accomplishments, represent what the University values and strives to instill in its graduates. It may be scholarly attainment, it may be artistic excellence, it may be a life of outstanding service. These are exceptional individuals in all fields of endeavor who serve as role models and as inspirations for students and faculty alike. It is for these reasons that Binghamton University recognizes them with an honorary degree from the State University of New York - Doctor of Humane Letters, Doctor of Law or Doctor of Science. In so doing, the University not only celebrates their achievements, but also claims them proudly as having a special relationship with Binghamton University.

Ronald G. Ehrenberg

Internationally known economist and educator Ronald G. Ehrenberg, a 1966 graduate of Binghamton University, is the Irving M. Ives Professor of Industrial and Labor Relations and Economics at Cornell University, where he is also director of the Cornell Higher Education Research Institute. In 2005, he was named a Stephen H. Weiss Presidential Fellow, the highest honor for undergraduate teaching that Cornell bestows. His research and publications on the economics of education have earned widespread praise and have contributed to the national dialogue on the funding of higher education, public and private.

Ehrenberg earned his bachelor of arts in mathematical sciences from Binghamton before receiving both his master's and doctoral degrees in economics from Northwestern University. He served as an instructor at Northwestern, was an assistant professor at Loyola University in Chicago, rose to the rank of associate professor at the University of Massachusetts at Amherst and, in 1975, joined Cornell's faculty as an associate professor of economics and labor economics. At Cornell, he has held numerous positions as an educator, but has also been chairman of the Department of Labor Economics, director of research for the New York State School of Industrial and Labor Relations and, from 1995 to 1998, vice president for academic programs, planning and budgeting.

A staunch advocate of public higher education, Ehrenberg and his wife, Randy Ann Birch Ehrenberg, a 1967 Binghamton University alumna, established the Judith and Seymour Ehrenberg Endowed Scholarship in 1998. The scholarship is for Harpur College of Arts and Sciences students of limited financial means, and is named for Ehrenberg's parents, both former teachers in New York City public schools.

In addition to the economics of education, Ehrenberg's primary fields of specialization include the analysis of labor markets, evaluation

Richard Felder

Richard Felder, a chemical engineer by training, is known for his expertise in effective teaching methods, in particular in the field of engineering.

Felder attended City College of New York, earning his bachelor's degree in chemical engineering. He went on to Princeton University, where he received his doctorate in chemical engineering and is currently Hoechst Celanese Professor Emeritus of Chemical Engineering at North Carolina State University. Felder worked for the Atomic Energy Research Establishment in Harwell, England, and for the Brookhaven National Laboratory before joining the faculty at North Carolina State.

Co-author of *Elementary Principles of Chemical Processes*, an introductory chemical engineering text among the most popular in the field, Felder has published more than 200 works on science and engineering education and chemical process engineering and currently writes a column on educational methods and issues titled "Random Thoughts" for *Chemical Engineering Education*, a quarterly journal.

Felder is co-director of the National Effective Teaching Institute (NETI) with his wife and colleague, Dr. Rebecca Brent, offering

of social programs and analysis of compensation programs. He is the author of more than 125 journal articles and book chapters, including "The Perfect Storm and the Privatization of Higher Education," and has written or edited nearly two dozen books and book-length final reports, among them *Tuition Rising: Why College Costs So Much* and *What's Happening to Public Higher Education*.

Ehrenberg's professional experience also includes refereeing and screening manuscripts for more than a dozen journals, serving as a founding editor of *Research in Labor Economics* and co-editing the *Journal of Human Resources* for 10 years. He also served in an editorial capacity for more than a dozen journals including the *Journal of Economics and Business*, *Industrial and Labor Relations Review*, *American Economic Review* and the *Economics of Education Review*, and as a consultant to faculty, administrative groups and trustees at a number of colleges and universities on issues relating to tuition, financial-aid policies, faculty compensation policies, faculty retirement policies and other budgetary, planning and academic issues.

Ehrenberg is a member of several national associations supporting the fields of higher education and economics, including the Society of Labor Economists, the National Academy of Education, the National Academy of Science and the National Bureau of Economic Research. He currently chairs the National Research Council's Board of Higher Education and serves on its committee on Gender Differences in the Careers of Science, Engineering and Mathematics Faculty. A 2003 recipient of the General Mills Foundation Award for Exemplary Undergraduate Teaching from Cornell, he has also served as a member of the Cornell Board of Trustees since 2006.

guidance and teaching workshops on effective teaching methods. Established in 1991, the NETI is a three-day, annual workshop sponsored by the Educational Research and Methods and the Chemical Engineering divisions of the American Society for Engineering Education (ASEE) for faculty from engineering and engineering technology institutions. The workshop provides participants with the tools they need to be effective in the classroom, skills to begin their teaching careers in a positive manner and materials and methods to use for faculty development on their campuses.

Felder's teaching methods involve inductive teaching, including inquiry-based learning, project-based learning and other student-centered methods that immediately involve students as active learners. Felder's student-centered approach to teaching shifts from the traditional lecture-minded approach to one that engages students, moving away from the traditional chalkboard lecture and using a variety of approaches to present the material, taking into account different learning styles. His ideas have been used by faculty in the Thomas J. Watson School of Engineering and Applied Science.

Felder has been honored with numerous awards for his instructional leadership and innovations in teaching, including

the R.J. Reynolds Award for Excellence in Teaching, Research and Extension; the AT&T Foundation Award for Excellence in Engineering Education; the Chemical Manufacturers Association National Catalyst Award; and the American Institute of Chemical Engineers (AIChE) Institute Lectureship Award. He has also been recognized with several awards for publications on engineering education.

Ted Kooser

Former life insurance executive Theodore J. (Ted) Kooser, 13th Poet Laureate Consultant to the Library of Congress and Pulitzer Prize winner, is a presidential professor of English at the University of Nebraska-Lincoln.

He attended Iowa State University, earning a bachelor of science degree in English education, then taught high school for a year before beginning graduate study in English. He earned his master's degree in English at the University of Nebraska on a part-time basis, while working full-time for Bankers Life Nebraska. Kooser also published his journal, *The Salt Creek Reader*, in the '60s and then *The New Salt Creek Reader*. He then turned to publishing books by fellow poets under his Windflower Press enterprise.

Though the insurance field is far removed from poetry, Kooser wrote poetry each day before heading for the office. Doing so, he published 11 full-length collections of poetry while rising to the position of vice president of Lincoln Benefit Life, from which he retired in 1999. His published works began with *Official Entry Blank* (1969). Other works include *Sure Signs: New and Selected Poems* (1980), *Weather Central* (1994) and *Delights and Shadows* (2004), for which he was awarded the Pulitzer Prize for Poetry in 2005. Also in 2005, Kooser turned his attention to aspiring poets and published *The Poetry Home Repair Manual: Practical Advice for Beginning Poets*.

Kooser has also written plays, fiction, personal essays and literary criticism, edited a number of publications, published numerous smaller works and contributed to *The American Poetry Review*, *Antioch Review*, *Cream City Review*, *The Hudson Review*,

Raymond Osterhout

Retired insurance executive and philanthropist Raymond Osterhout believes Binghamton University can play a strong role in revitalizing the Southern Tier economy. A native of Windsor, N.Y., Osterhout has reaffirmed this belief through two separate \$1 million gifts to Binghamton University — one to establish the Ray and Wanda Osterhout Distinguished Professorship in Entrepreneurship within the School of Management and the second to name the Osterhout Concert Theater in support of the Anderson Center for the Performing Arts.

The Distinguished Professorship in Entrepreneurship gift supports the continued growth of the one of the School of Management's most innovative programs, designed to prepare graduates with hands-on knowledge needed to launch successful new businesses in today's complex economic environment. The gift to the Anderson Center for the Performing Arts is helping to maintain the high integrity of the center's technical equipment, as well as the high caliber of performances.

A graduate of Windsor High School, Osterhout was a stand-out in cross country and track who attended Syracuse University on a full athletic scholarship, competing as an All-American miler for the then-national powerhouse Syracuse track squad. During his collegiate career, he amassed several records and both individual and team championships.

He married his high-school sweetheart, Wanda Steinbrecher, while still a student at Syracuse. After graduating from there with a bachelor of arts degree in economics, Osterhout entered the insurance field, first working for Kemper Insurance before moving on to the

Felder is a member of the AIChE, a fellow of the ASEE and is listed in the 21st edition of *American Men & Women of Science*, a biographical directory of today's leaders in physical, biological and related sciences.

Kansas Quarterly, *The Kenyon Review*, *Midwest Quarterly*, *The New Yorker*, *Poetry Northwest*, *Poetry*, *Prairie Schooner*, *Shenandoah* and *Tailwind*.

Known as a master of metaphor whose poetry focuses on his Great Plains surroundings, Kooser founded the American Life in Poetry project as a cornerstone of his Poet Laureate work. The project provided a free column featuring brief poems by contemporary American poets to newspapers and online publications each week during his two-year tenure, to promote poetry to the general public. Two poets featured in the column have Binghamton University ties: Ruth Stone, professor emerita of English, and Andrei Gureanu, a graduate student.

In 2006, Kooser was honored with the Binghamton University Milt Kessler Poetry Book Award for his book of poems, *Delights and Shadows*. While on campus to accept the award, Kooser conducted a workshop and gave a reading.

Kooser has also won numerous awards, including two National Endowment for the Arts Literary Fellowships, the Pushcart Prize, Nebraska Book Awards for Poetry (2001) and Nonfiction (2003), two Society of Midland Authors Poetry Prizes and the Prairie Schooner Prize in Poetry.

A survivor of Stage 4 oral cancer, Kooser collaborated recently with an artist-in-residence at the University of Nebraska Medical Center to help medical students learn how to better observe their patients.

reinsurance field. He rose to the position of president of the National Reinsurance Corporation before serving as chairman, president and CEO of American Independent Reinsurance Corporation, part of Aetna Life and Casualty Company. After selling that firm, he accepted a position with Swiss Reinsurance Corporation in Zurich, Switzerland, the world's second-largest reinsurance firm. As the company's group vice president and underwriting and marketing manager, he was responsible for underwriting and marketing activities throughout the United States. He retired from Swiss Reinsurance Corporation in 2002, continuing to serve as a consultant for the firm for a time.

Osterhout invested in Direct General Corporation, a private insurance start-up in Nashville, Tenn., and served on its board of directors and its audit, compensation, and nominating and corporate governance committees. A successful IPO for Direct General enabled Osterhout to fulfill his philanthropic wishes on a larger scale, and in the span of four months, he made his two generous gifts to Binghamton University because, he said, it was "the right thing to do."

Osterhout serves on the boards of several nonprofit organizations, including the Stillson Memorial Medical Center Association and the Broome County Council of Churches. He's a member of the School of Management's Dean's Advisory Board and the Harpur Forum. He also serves as a judge and mentor for the School of Management's business plan competitions.

With his wife, Osterhout was also honored with the Binghamton University Alumni Association Distinguished Service Award in 2005, in recognition of their lives and significant achievements that serve as an example of the University's aspirations for its students.

Graduate Ceremony

Saturday, May 17, 2008, 5:00 p.m.

Order of March

The **academic procession** forms in and outside the Events Center where students and faculty assemble in designated areas. The procession is led by the grand marshal, followed by the various constituencies of the University community, each of which is led by faculty and student marshals to the proper seating area.

Marching immediately after the grand marshal are

candidates for the doctor of education and doctor of philosophy, followed by candidates for the master's degree, grouped in the following order: Harpur College, College of Community and Public Affairs, Decker School of Nursing, School of Education, School of Management, Thomas J. Watson School of Engineering and Applied Science.

Processional

“By the Rolling Hills of Binghamton”

(We invite the audience to join in singing the refrain and second verse.)

In the rolling hills of Binghamton
‘Neath everchanging skies
Where two gently flowing rivers meet,
We form our cherished ties.

Together we spend these years,
United in our aim.
Through our bold pursuit of excellence,
We proudly bear your name.

Refrain:

O Binghamton, we carry thee
With us for all our time
And through us individually
Forever may you shine.

RECESSIONAL

Nicolai Rimsky-Korsakov: “Procession of Nobles”

Harpur College Morning Ceremony

Sunday, May 18, 2008, 9 a.m.

Order of March

The **academic procession** forms in and outside the Events Center, where students and faculty assemble in designated areas. The procession is led by the grand marshal, followed by the various constituencies of the University community, each of which is led by faculty and student marshals to the proper seating area.

Marching immediately after the grand marshal are candidates for the baccalaureate degree from Harpur College from departments and programs in the Humanities (Africana Studies; Art; Art History; Cinema; Classical and Near Eastern Studies; Comparative Literature; English, General Literature and Rhetoric; German, Russian, and East Asian Languages; Judaic Studies; Medieval Studies; Music; Philosophy; Philosophy, Politics and Law; Romance Languages and Literatures; and Theatre). Next in order are candidates from the Science and Mathematics departments and programs (Biochemistry; Biological Sciences; Chemistry; Geological Sciences and Environmental Studies; Mathematical Sciences; Physics, Applied Physics, and Astronomy; Psychobiology; and Psychology). Following them are candidates from the

Social Sciences departments and programs (Anthropology; Asian and Asian American Studies; Economics; Geography; History; Individualized Major Program; Latin American and Caribbean Area Studies; Linguistics; Political Science; and Sociology).

Joining the procession after the undergraduates are representatives of the faculty. The president and distinguished members of the platform party, including council members, then join the procession.

A column of four files enters the Events Center from the back and divides to march down the aisles. Faculty and student marshals, the latter carrying banners to identify the student groups, march down the center aisle. Pipers lead in the faculty and the platform party in tribute to Robert Harpur, an eminent colonial New Yorker of Scottish heritage, whose name is linked with the historic roots of the University. The procession ends as the president and other platform party participants join the grand marshal and take their seats on the platform.

We form our cherished ties.

Together we spend these years,
United in our aim.
Through our bold pursuit of excellence,
We proudly bear your name.

Refrain:

O Binghamton, we carry thee
With us for all our time
And through us individually
Forever may you shine.

RECESSIONAL

Nicolai Rimsky-Korsakov: “Procession of Nobles”

Harpur College Afternoon Ceremony

Sunday, May 18, 2008, 4 p.m.

Order of March

The **academic procession** forms in and outside the Events Center where students and faculty assemble in designated areas. The procession is led by the grand marshal, followed by the various constituencies of the University community, each of which is led by faculty and student marshals to the proper seating area.

Marching immediately after the grand marshal are candidates for the baccalaureate degree from Harpur College from the Humanities departments and programs (Africana Studies; Art; Art History; Cinema; Classical and Near Eastern Studies; Comparative Literature; English, General Literature and Rhetoric; German, Russian, and East Asian Languages; Judaic Studies; Medieval Studies; Music; Philosophy; Philosophy, Politics and Law; Romance Languages and Literatures; and Theatre). Next in order are candidates from the Science and Mathematics departments and programs (Biochemistry; Biological Sciences; Chemistry; Geological Sciences and Environmental Studies; Mathematical Sciences; Physics, Applied Physics, and Astronomy; Psychobiology; and Psychology). Following them are candidates from the

Social Sciences departments and programs (Anthropology; Asian and Asian American Studies; Economics; Geography; History; Individualized Major Program; Latin American and Caribbean Area Studies; Linguistics; Political Science; and Sociology).

Joining the procession after the undergraduates are representatives of the faculty. The president and distinguished members of the platform party, including council members, then join the procession.

A column of four files enters the Events Center from the back and divides to march down the aisles. Faculty and student marshals, the latter carrying banners to identify the student groups, march down the center aisle. Pipers lead in the faculty and the platform party in tribute to Robert Harpur, an eminent Colonial New Yorker of Scottish heritage, whose name is linked with the historic roots of the University. The procession ends as the president and other platform party participants join the grand marshal and take their seats on the platform.

Processional

GRAND MARSHAL

H. Richard Naslund *Professor, Geological Sciences, Chair of the Faculty Senate*

DIVISIONAL AND STUDENT MARSHALS

Keisha Benjamin *Student Marshal, Humanities*

Michael Boykin *Student Marshal, Social Sciences*

Michael Conlon *Professor, English, Division Marshal, Humanities*

Provost Swain
President DeFleur

ALMA MATER

Words by Xin Engel, Music by David Engel '86

“By the Rolling Hills of Binghamton”

(We invite the audience to join in singing the refrain and second verse.)

In the rolling hills of Binghamton
‘Neath everchanging skies
Where two gently flowing rivers meet,
We form our cherished ties.

Together we spend these years,
United in our aim.
Through our bold pursuit of excellence,
We proudly bear your name.

Refrain:

O Binghamton, we carry thee
With us for all our time
And through us individually
Forever may you shine.

Dual-Diploma Program

These innovative bachelor-degree programs prepare students with high-level substantive knowledge and analytical skills for careers requiring global perspectives. Participating Turkish students typically spend freshman and junior years at their home campus and their sophomore and senior years abroad at Binghamton University. The program exposes the students to two cultures and two educational systems. As a result, students will receive a diploma from each school. The State University of New York's dual-diploma program with Turkey received the prestigious Andrew Heiskell Award for International Exchange Partnerships in January 2007 from the Institute of International Education.

Distinguished Dissertation Awards

Humanities and Fine Arts

Vern Walker, Department of Comparative Literature
Pacifism's Precarity
Principal Dissertation Supervisor: Gisela Brinker-Gabler

Social Sciences, Management, Education and Nursing

Marta Pilar Alfonso Durruty, Department of Anthropology
Biosignificance of Harri's Lines as Stress Markers in Relation to Moderate Undernutrition and Bone Growth Velocity: A New Zealand White Rabbit Model for the Study of Bone Growth
Principal Dissertation Supervisor: Michael A. Little

Ariel Belasen, Department of Economics
The Impact of Exogenous Shocks on Local Labor Markets
Principal Dissertation Supervisor: Solomon Polachek

Deanna Gillespie, Department of History
They Walk, Talk, and Act Like New People: Black Women and the Citizenship Education Program, 1957-1970
Principal Dissertation Supervisor: Kathryn K. Sklar

Engineering and Applied Science

Hongkun Zhao, Watson School, Department of Computer Science
Automatic Wrapper Generation for the Extraction of Search Result Records from Search Engines
Principal Dissertation Supervisor: Weiyi Meng

Science and Mathematics

Omar Eldakar, Department of Biology
The Evolution of Self-Limiting Behavioral Strategies
Principal Dissertation Supervisor: David Sloan Wilson

Jason Karasinski, Department of Chemistry
Design and Implementation of Optical Biosensors and Novel Methods for Microbial Identification
Principal Dissertation Supervisor: Omowunmi A. Sadik

Doctoral Degree Recipients

Jawairriya Abdallah-Shahid
(Education: Prof. Lubna Nazir Chaudhry)
Veiled Voices: Muhajabat in Secular Schools

Marta Pilar Alfonso Durruty
(Anthropology: Prof. Michael A. Little)
Biosignificance of Harri's Lines as Stress Markers in Relation to Moderate Undernutrition and Bone Growth Velocity: A New Zealand White Rabbit Model for the Study of Bone Growth

Katherine A. Arnoldi
(English: Prof. John Vernon)
Gelassenheit: Yielding

Lina Begdache
(Biology: Prof. Steven Tammariello)
NADPH Oxidase Induces PC12 Cell Differentiation and Apoptosis through Redox Signaling

Dikmen Bezzmez
(Sociology: Prof. Caglar Keydar)
The Politics of Urban Regeneration: The Case of the Golden Horn, Istanbul

Penny Sue Boyer
(Nursing: Prof. Gale Spencer)
Correlates and Determinants of Nurse Practitioners' Self-Efficacy in Adult Obesity Treatment and Weight Management Tactics

Michael A. Calderon-Zaks
(Sociology: Prof. William Martin)
Constructing the "Mexican Race": Racial Formation and Empire Building, 1884-1940

Zachary Rosello Collins
(Psychology: Prof. Matthew D. Johnson)
Effects of Enduring Vulnerabilities on Change in Marital Satisfaction: An Examination of Neuroticism, Romantic Attachment Style, and Parental Marital Quality

Marjorie Darraugh
(English: Prof. John Vernon)
The Philoquary

Cynthia Deitering
(English: Prof. John Vernon)
Waste Sites: Rethinking Nature, Body, and Home in American Fiction Since 1980

Omar Tonsi Eldakar
(Biology: Prof. David Sloan Wilson)
The Evolution of Self-Limiting Behavioral Strategies

Quan Fan
(Chemistry: Prof. M. Stanley Whittingham)
Synthesis and Characterization of Anode Materials for Lithium Ion Batteries

Oliver Werner Fassler
(Psychology: Prof. Steven J. Lynn)
Repeated Hypnosis Testing: Expectancies, Boredom, and Interpretive Set

Gaudencio C. Fidelis
(Art History: Prof. Aruna D'Souza)
The Reception and Legibility of Brazilian Contemporary Art in the United States (1995-2005)

Paul Frisch
(Biomedical Engineering: Prof. Kenneth McLeod)
Low Frequency Electromagnetic Field Induction of Heat Shock Gene Expression: Promoter for Targeted Gene Therapy

Karen M. Gagne
(Sociology: Prof. Michael O. West)
Fiction as a Guerilla Activity: Toward a New Science of the Human

Deanna Michele Gillespie
(History: Prof. Kathryn Sklar)
"They Walk, Talk, and Act like New People: Black Women and the Citizenship Education Program, 1957-1970

Racquel S. Goodison
(English: Prof. Leslie Heywood)
Writing Home: Stories and Poems

Wilson Herrera
(Philosophy {PIC}: Prof. Stephen David Ross)
Political Guilt, Forgiveness and the Duty to Remember

Satyanarayan Shivkumar Iyer
(Systems Science: Prof. Krishnaswami Srihari)
Assembly, Reliability, and Rework of Stacked CSP Components

Rahul M. Khandekar
(Electrical Engineering: Prof. Vladimir V. Nikulin)
Advanced Wavefront Manipulation Technologies in Optical Systems

Samuel N. Kikandi
(Chemistry: Prof. Omowunmi A. Sadlik)
Understanding the Mode of Action of Estrogenic Compounds & Development of Novel Electroless Plating Methods

Santosh Anil Kudtarkar
(Systems Science: Prof. Krishnaswami Srihari)
Investigation of Ball Bond Integrity for 0.8 MIL (20 Microns) Diameter Gold Bonding Wire on Low k Die in Wire Bonding Technology

Heikki Markus Kujansivu
(Comparative Literature: Prof. Brett Levinson)
Returning Thirds: On Reading Literature

I-Im Stephanie Lim
(Chemistry: Prof. Chuan-Jian Zhong)
Molecularly Mediated Assembly of Nanoparticles towards Functional Nanostructures

Chi-Wei Liu
(Sociology: Prof. Kelvin Santiago-Valles)
Hog Island: Agricultural Protectionism, Food Dependency, and Impact of the International Food Regime in Taiwan

Megan L. Mackey

(Education: Prof. Beverly Rainforth)
Including Students with Disabilities in Middle School Classrooms: A Case Study of Three General Education Teachers

Shiva Kalyan Mandepudi

(Materials Engineering: Prof. M. Stanley Whittingham)
Engineering the Stress Temperature Response of Shape Memory Alloy Thin Films through the Development of Composite Structures

Nadine McCloud

(Economics: Prof. Subal Kumbhakar)
Model Misspecification: Theory and Applications

Silvia J. Millan-Vossler

(Mathematical Sciences: Prof. Thomas Farrell)
The Whitehead Group and the Lower Algebraic K-theory of Braid Groups on S^2 and RP^2

Junhong Min

(Management: Prof. Debi P. Mishra)
Relationship Memory and Performance: An Empirical Test of Governance Value Determinants in Inter-Firm Relationships

Mark L. Montgomery

(English: Prof. Leslie Heywood)
Someone to Watch Over

Derrick M. Mott

(Chemistry: Prof. Chuan-Jian Zhong)
Synthesis, Characterization, and Catalysis of Metal Nanoparticles

Brilliant Besi Muhonja

(Philosophy {PIC}: Prof. Nkiru Nzegwu)
Ogu Ndem: Aggressive Silence

Diane M. O'Heron

(English: Prof. Marilyn Desmond)
Renunciation and Resistance: Confessions at the Alcoholic and Addicted Experience in the 19th and 20th Century

Rita Palrecha

(Management: Prof. William D. Spangler)
The Transformational Leader Model, the Nurturant-Task Leader Model, and the Unique Local Leadership Model: A Quantitative and Qualitative Competitive Test of Three Leadership Models in India

Tomas Pevny

(Computer Science: Prof. Jessica Fridrich)
Kernel Methods in Steganalysis

Leigh Phillips

(English: Prof. Maria Gillan)
How We Happen: Poems

Deborah Marie Poe

(English: Prof. Jaimee Wriston Colbert)
Event Landmarks

Holly Lowell Richards

(English: Prof. Maria Gillan)
A History of Secrets

Ute Ritz-Deutch

(History: Prof. Jean H. Quataert)
Alberto Vojtech Fric, the German Diaspora, and Indian Protection in Southern Brazil, 1900-1920: A Transatlantic Ethno-Historical Case Study

Jessica Justine Roland

(Psychology: Prof. Lisa Savage)
Septohippocampal System Modulation in an Animal Model of Diencephalic Amnesia

Jun (Tony) Ruan

(Management: Prof. Kristian Rydqvist)
Three Essays in Financial Economics

Ruth Schnabl

(Comparative Literature: Prof. William Haver)
Gravity-Bound: The Articulation of the Body in Art and the Possibility of Community

Amy Susan Douglass Shaver

(Nursing: Prof. Sarah Gueldner)
Attaining 'Healthy Life' as Perceived by Rural Elder Community Dwellers: A Narrative Analysis

Yuanyuan Song

(Mechanical Engineering: Prof. Ronald N. Miles)
Design, Analysis and Characterization of Silicon Microphones

Zhenming Tang

(Mechanical Engineering: Prof. Seungbae Park)
Interfacial Reliability of Pb-Free Flip-Chip BGA Package

Gonzalo Pablo Urcelay

(Psychology: Prof. Ralph R. Miller)
Potentiation and Overshadowing in Pavlovian Fear Conditioning

Susan Terwilliger

(Education: Prof. Beverly Rainforth)
A Study of Children Enrolled in a School-based Physical Activity Program with Attention to Overweight and Depression

Helene van Berge-Landry

(Anthropology: Prof. Gary James)
Ethnic Differences in Diurnal Blood Pressure Variation and Regulation: The Effects of Catecholamines, Cortisol, and IL-6

Vern Edward Walker

(Comparative Literature: Prof. Gisela Brinker-Gabler)
Pacifism's Precarity

Bronlyn Marie Wassink

(Mathematical Sciences: Prof. Matthew Brin)
Subgroups of R. Thompson's Group F that are Isomorphic to F

Xiaozhou Wei

(Computer Science: Prof. Lijun Yin)
3D Facial Expression Modeling and Analysis with Topographic Information

Melyssa Wrisley

(History: Prof. Kathryn Kish Sklar)
Fashioning a New Femininity: Charlotte Perkins Gilman and Discourses of Dress, Gender, and Sexuality, 1875-1930

Chin-shan Wu

(History: Prof. John Chaffee)
Subordinates and Evildoers: Song Scholar-Officials' Perceptions of Clerks

Congratulations to the Class of 2008 from the Alumni Association and the Binghamton University Foundation

Congratulations on your graduation from Binghamton University, the premier public university in the Northeast. You are now part of a special group of more than 95,000 alumni.

Although your time as a student has come to a close, your relationship with the University is not over. In fact, a new chapter is about to begin. By graduating from Binghamton University, you are automatically a member of our Alumni Association; membership provides a number of benefits to you at no cost.

The Alumni Association is your gateway to a lifetime link with the University and fellow graduates. Every year, the association sponsors a number of events across the country, bringing alumni together by region, class year or special interest. Homecoming, held each fall, is an occasion that invites graduates back to campus so they can catch up with old friends and celebrate significant milestones. We hope you'll join us for this year's event, planned for October 17-19, 2008. Our online community, B-connected — accessible through the Alumni Association website (<http://alumni.binghamton.edu>) — can help you stay in touch with classmates and tap into the Alumni Career

Network, a tremendous resource for Binghamton graduates seeking guidance or employment opportunities.

As a graduate, you are in a unique position to assist the University. Many alumni serve as volunteers, helping to bring bright young minds to Binghamton and providing students with career advice they need to compete in an increasingly fast-paced global economy. In addition, your financial generosity can help the University remain competitive for years to come. Donations to the Binghamton Fund support powerful, essential and immediate needs such as student conferences and travel, undergraduate research awards, laboratory equipment, art supplies, computers, faculty research support, student-alumni networking initiatives and visiting speakers.

The word commencement is appropriate because today is a beginning. A new phase of your life is starting, one in which you'll use your Binghamton education to make a difference in the world. Our alumni are everywhere, accomplishing great things. We hope you'll excel in your future endeavors and help us continue the tradition of excellence at Binghamton University.

Academic Regalia

The history of academic regalia extends back to the earliest European universities in the 11th century, where it was a way of setting the academic community apart from the world of manual labor.

Medieval universities established strict rules of dress, both for university ceremonies and for regular classes. Although few codes survive, Oxford University's ordinances illustrate the regulations. Puffed sleeves, colored hose and pointed shoes were prohibited; the well-dressed Oxford student of the time wore a black sleeveless gown to the heels and a hood of white fur.

In the United States, there was only a limited use of academic dress until the 1870s, when caps and gowns began to be used fairly regularly on ceremonial occasions. By 1890, students at many colleges wore some kind of academic dress at commencement, and in 1895 a code of academic dress was established by representatives of the leading institutions. With some changes, it is still in force today.

The shapes, colors and trim of gowns, hoods and caps indicate the academic degree, the school granting the degree and the subject of study. The higher the degree, the more elaborate the costume. Gowns, for example, are distinguished by the shape of the sleeves; bachelors' gowns have pointed sleeves, masters' gowns have sleeves cut square at the back and doctors' gowns also have velvet facing and three velvet bars on the sleeves that are either black or in a color indicating the degree: dark blue for

philosophy, light blue for education, golden yellow for science, lemon yellow for library science, pink for music, orange for engineering, brown for fine arts, white for arts, letters and humanities and copper for economics.

Hoods are distinguished by length. They are lined with the official color(s) of the institution conferring the degree and trimmed with a color indicating the subject in which the degree is granted. Bachelors' hoods are three feet long, with a two-inch trim of velvet. Masters' hoods are three and one-half feet, with a three-inch trim. Doctors' hoods are four feet long, with side panels and a five-inch trim.

The cap or mortarboard is black, with a long tassel fastened to the top. The tassel may be black or the color appropriate to the subject; however, only doctors' caps may have a tassel of gold thread. It is customary for graduates to move the tassels from right to left after degrees are awarded.

The colors of the State University of New York are blue and gold, and may be seen in the hoods of all those who will receive the doctorate today, including honorary degree recipients. The members of the Binghamton University Council, marching at the head of the platform party, wear special regalia in the Binghamton University local colors of green and white, with the State University blue and gold in their hoods. These local colors are also reflected in the green-on-white Binghamton University seal that is imprinted on the class hoods that our baccalaureate recipients wear over their gowns.

The University Mace

A gift of the Class of 1993, the University Mace is representative of the magisterial authority of the University as an institution of higher learning. Such symbols go far back into antiquity, their use proclaiming the power of the holder. Now, however, the Mace stands for the pre-eminence of the world of knowledge.

Professor John Thomson of the Department of Studio Art undertook the commission by the Class of 1993 for the

University Mace. Nearly three feet long, it is made of hand-turned and polished walnut. The spherical head has two inset cast-bronze facets in the shape of medallions. One bears the seal of Binghamton University. The other carries a high-relief rendering of Pegasus, the flying horse of Greek mythology, which as a part of the seal symbolizes the University's aspirations for its future.

The Binghamton University Commencement ceremonies are a tradition in which we recognize the achievements of our students. We would like to extend our appreciation to the members of the Commencement Expeditors' Committee and other individuals who make these events possible. Their dedication, creativity and overall efforts produce a memorable occasion for us all.

Please note that the list of candidates in this program was based on information available at the time of printing. We apologize if anyone's name was inadvertently misspelled or was omitted because of changes after the printing deadline.
